

ART BY NATALYA

architecturally inspired . thoughtfully repurposed . delicately stitched

NTGM & AAFG hosted Natalya Khorover Lecture Nov 10, 2020 - Alternative Stitch Practices Workshops - Nov 11 & 14 - Pseudo Floral/Plastic Nature

Our 2nd joint adventure was another success. The two Guilds enjoyed a great, thoughtful lecture. Natalya showed us a whole new world of potential materials and subject matter.

Then some of us joined Natalya for an amazing 6-hour Zoom workshop!

"Reclaiming and re-purposing materials to use in my art has been my practice for years. I use meditative hand stitching and mending of vintage linen, alongside my industrial sewing machine to stitch and collage layers of translucent single-use plastics which would otherwise contribute to litter pollution. The transformation I subject them to makes these materials unrecognizable."

*Hello everyone!
Just wanted to take a moment to thank you all for joining me in the alternative universe of Zoom for the two workshops this week. Thank you for trusting me with your time and attention.*

I hope that you all saw the possibilities in the materials that I introduced you to. I do think you all did amazing work, and I hope you're pleased. I sincerely hope that those of you who didn't think that your artwork was up to par, will consider it a good trial and will endeavor to try again.

As we all know, practice, though it may not make things

perfect, does at the very least make things better.

Please continue sharing your art with me, and please follow me on Instagram at <https://www.instagram.com/artbynatalya/>, on Facebook at <https://www.facebook.com/NatalyaKhoroverArtist> and do sign up to my newsletter for all the latest news and birthday surprises <http://eepurl.com/dO468z>

Stay healthy and well, enjoy the holidays and may you have a restful and creative end of this crazy year!

*Thank you,
Natalya*
